Landform Brochure Project!

Your landform is a(n) _____!

You will find and choose a specific landform to research and create a brochure about this exotic destination. In your brochure you will have 3 sections:

- 1. Description**
- 2. Climate**
- 3. Formation**

You may also add a **4th (bonus!) section** with things like fun facts, things to do if you visit, etc.

The initial research will be done in class but the project will mostly be worked on at home. Once you have researched and found the specific landform you will do for your brochure please confirm your choice with Ms. Senty and get her signature of approval to begin your project!

Have fun!

Ms. Senty

My brochure will be on: _____

Ms. Senty approval: _____
